Summary

front-end developer specializes in developing applications and websites and designing user interfaces that are attractive and interactive with the user. I am proficient in programming languages such as HTML, CSS, JavaScript, Vue3.js and framework for css like (Bulma, Bootstrap, tailwind), and I have good knowledge of JQuery.

Experience

○ Junior Front-end Developer

DataMed / Damascus - 06/2024 to now

❖ Tasks:

- Develop and implement user interfaces for Doctors.sy website.
- Work with the design team to ensure that the user Interface matches the design requirements.
- Work with the backend team to link user interfaces with data and backend services.
- Improve the performance and speed of loading websites and mobile applications.
- Test and debug bugs in user interfaces.

❖ Technologies:

HTML5, CSS3, Saas, Javascript, Axios Api, Vuejs3, Vuetify, Pinia store, Git lab.

❖ Achievements:

- Contributed to the development of user interfaces for *Doctors.sy* website, which is a medical website that contains a large documented medical database and various articles and research.
- Allows doctors to create a personal account and add their information and experiences and provides management of their appointments
- Patients can search for doctors, hospitals and pharmacies with the ability to communicate with them via a contact number or messages.

- **Front-end design and development training**

Al Baraka Association - 03/2021 to 11/2023

This course consisted of three levels:

Basic level:

HTML/ CSS/JavaScript/Bulma is a CSS framework /Git & GitHub.

Advanced level:

Vue.js: is a JavaScript framework for building user interfaces

Vuetify: Its goal is to build rich and attractive user interfaces.

Pinia: it allows you to share state across components/pages.

Business Ethics:

How to employ ethics such as honesty, integrity, justice, transparency, respect for others, and social responsibility at work. Adhering to ethical standards can help companies build trust with stakeholders, enhance their reputation, and contribute to long-term success.

Skills
