Skills

- Html5/CSS3
- Javascript/JQuery
- Sass
- Bootstrap/Bulma/Tailwind
- Vuejs3/Vuetify
- State Manegment by Pinia
- Responsive design
- Problem Solving
- Data Structure And Algorithm
- API
- OOP
- Git & GitHub
- Clean Code

Languages

- Arabic
- English _(A2)

Summary

A front-end developer specializes in developing applications and websites and designing user interfaces that are attractive and interactive with the user. I am proficient in programming languages such as HTML, CSS, JavaScript, Vue3.js and framework for css like (Bulma, Bootstrap, tailwind), and I have good knowledge of JQuery.

Experience

Front-end design and development - 03/2021 to 11/2023

This course consisted of three levels:

Basic level:

HTML/ CSS/JavaScript/Bulma is a CSS framework /Git & GitHub.

Advanced level:

Vue.js: is a JavaScript framework for building user interfaces

Vuetify: A set of pre-built components combined with powerful features. Its goal is to build rich and attractive user interfaces.

Pinia: is a store library for Vue, it allows you to share state across components/pages.

Business Ethics:

How to employ ethics such as honesty, integrity, justice, transparency, respect for others, and social responsibility at work. Adhering to ethical standards can help companies build trust with stakeholders, enhance their reputation, and contribute to long-term success.

Also, work was done on realistic projects and building distinct websites and applications from these applications (e-commerce application, ToDo list, user login form....)

My Projects

E-commerce App : [angel store \(a-e-commerce.vercel.app\)](#)

Scholar Website : [Scholar \(mariam-rasho.github.io\)](#)

SEO.co Website : [seoBizz \(mariam-rasho.github.io\)](#)

Movies Disney Website: [Movies Disney \(mariam-rasho.github.io\)](#)

Stopwatch Timer : [Stopwatch \(mariam-rasho.github.io\)](#)

Form Add User: [Document \(mariam-rasho.github.io\)](#)

ToDo List : [Fetch API using component \(mariam-rasho.github.io\)](#)

Education

Damascus University Bachelor's degree in **Information Technology Engineering**.

Graduated in Aug 2022
